

Face Time for Online Learning

The Problem

Online instructors have many obstacles to student presentation assignments:

- *Too many video files and formats on mailed hard media
- *Email and CMS clogged with large video files
- *Required visits campus
- *Student privacy violated by using public "tube" systems

The Solution

YouSeeU is a powerful online assessment and interaction system that enables educators and students to securely and efficiently connect and exchange video presentations and discussions in an asynchronous learning environment

Institution Benefits

- *No load on your IT resources, use our storage, bandwidth, and tech support
- *Increase credibility for your program and improved identity verification
- *No cost to your institution - The service is paid for by the students, unless your institution establishes an institution-paid agreement with discounts
- *Ease of Integration - We'll launch with your class lists and embed in your course management system
- *Familiarity for students. We'll integrate your look and feel.
- *Demonstrates your commitment to innovation

YouSeeU's Proprietary 3SyncPlayer©

The screenshot displays the YouSeeU 3SyncPlayer interface. On the left, a video player shows a man in a black shirt speaking at a podium. On the right, a presentation slide titled "What is Entrepreneurship?" is visible, with the text: "Entrepreneurship is the process by which individuals pursue opportunities without regard to the resources they currently control." Below the video player, there are three buttons: "add comment", "remove comment", and "save". A "SyncComments" section contains two comments: "02:53 Excellent emphasis of main point" and "01:26 Consider eye contact and scan entire audience". A "copy comments" button is located to the left of the comments. To the right of the comments, there is a "Grade" input field, a "save grade" button, and a "next video" button. The video player's progress bar shows 02:53 / 08:35. The SyncShow™ and YouSeeU logos are in the bottom right corner of the video player.

Simple, Powerful and Secure

YouSeeU's proprietary 3SyncPlayer© solves the problem of facilitating and evaluating online student presentations and discussions without the wasteful use of DVD's, flash drives or vulnerable public 'tube' sites.

Uploaded videos and slides work together in a choreographed, synchronized production that offers a powerful creative platform for both individual tasks and group projects.

Teachable Moments Captured

Our SyncComments™ feature enables instructors to record their thoughts and observations while reviewing a student's submitted video assignment.

SyncComments™ delivers a moving, synchronized, time stamped instructional commentary. This provides the student with an invaluable source of feedback and coaching focused on their submitted work.
